PRI-RGBD-XX

Features

1. PRI-RGBD-XX is especially design for our PRI-POOL-RGB-RE, PRI-POOL-RGB-X&XL. PRI-RGB-XC, PRI-POOL-RGB-XP and PRI-POOL-RGB-30W
2. PRI-RGBD-XX is designed for waterproof; it can be used for both indoor and outdoor.
3. PRI-RGBD-XX-200W can control 10PCS 18W LED lights & 5PCS 30W LED lights.

Specifications

|			
Item Code:	PRI-RGBD-XX	Quiescent current:	<6mA
Input Voltage:	240VAC	RF Sensitivity (dBm):	-101
Output Voltage:	12VAC	Work Temperature:	-40°~ +70°C
Input current:	0.5A~10A (According to the total LED light you use)	Work humidity:	10% ~ 90% RH
		Control Distance:	100 M
Dynamic current:	According to your loads (standard: 500mA)	Dimension:	160 X 160 X 90 mm
		Weight:	1.8 Kg

Instruction of set remote controller code

Set code of remote controller:

1. There are two hand remotes inside PRI-RGBD-XX.

2. Press the white button for a short time (no more than 2 seconds). The red LED is on when the button is pressed.

3. Press a button of the hand remote (A or B). The red LED is on when a button is pressed.

After setting code of remote controller, PRI-RGBC-XX can be controlled by hand remote.

If you want to clear all the connections between the hand remotes (may be more than 3 remotes..) and the controller, press the white button in the box for over 5 seconds (when you press it, the red LED is on, press it till the LED is off).

Output 12VAC to LED light

BUTTON

Output 12VAC to LED light

Input 240VAC to Remote Controller
