

## Features

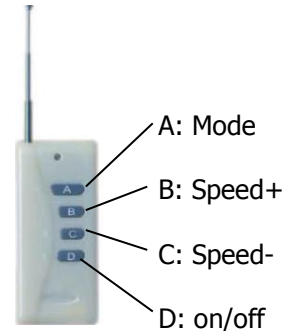

1. Remote wireless control for convenient use.
2. Dropping electrical protection circuit (Power down mode)
3. Waterproof RGB controller
4. Control distance approx. 20m
5. 2 output ports can use one or both ports at same time if need.
6. 9 different modes.

## Specifications

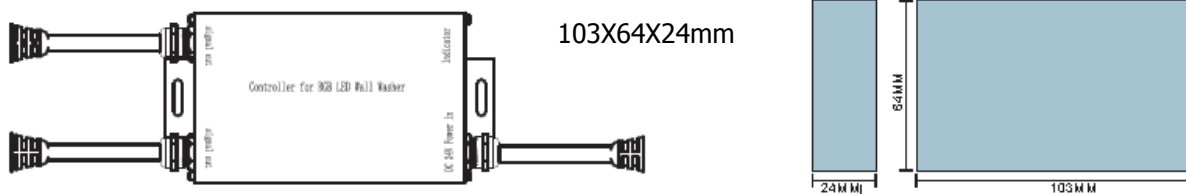

Input Voltage:	12~24VDC	Control distance:	20m (Freq. 433MHZ)
Output Current:	6A/Channel (total 12A)	Work temperature:	-20°~71°C

## Operation Instruction (The Function of the Buttons)

Program	Mode	Function
1	steady Red	7 single static colours
2	steady Yellow	
3	steady Green	
4	steady Cyan	
5	steady Blue	
6	steady Purple	
7	steady White	
8	Single colours jump	7 single colour jump (speed adjustable)
9	Gradual colour changing	Gradual colour changing (speed adjustable)
