

Features

1. Smart looking LED PIR sensor switch liner bar light appearance alloy structure with poly carbonate lens.
2. Very even 320lm output in natural white 4500K.
3. Perfect for wardrobe, kitchen cabinets.
4. Sensor distance 2 meters and delay time in 30 seconds.
5. Environmentally friendly, energy saving and high light efficiency. No hazardous materials content.
6. No UV or IR radiation.

Application

- Domestic Lighting
- Office, School, hospital
- Kitchen/Wardrobe/Cabinet lighting
- Show case display lighting
- Cove Lighting
- Decorative lighting

Specifications

Product Code:	PRI-SENS-BAR-4W	Sensor Distance:	2 meters
Power Consumption:	4W	Sensor Delay time:	30 seconds
Voltage:	12VDC	Fitting Material:	Alloy
Luminous Flux:	320 lm	Environment Temperature:	-25°C ~ 40°C
View angle:	120°	Environment Humidity:	<95%
Colour Temperature:	4500K	Net weight:	250g
