

Features

1. Wide applicability, easy installation and maintenance.
2. Super small can be fitted in 7mm channel.
3. Extremely luminous with wide view angle.
4. Energy saving and environmentally friendly.
5. Operating low voltage 12VDC.
6. High output and low power consumption.
7. Easy installation by 3M adhesive tape on the back.

Application

- Commercial application.
- Domestic Lighting
- Decorative
- Solid lighting character
- Advertising signs

Specifications

Product Code:	PRI-MICRO-MOD	Light source:	Super Bright 2835 smd
Power Consumption:	0.2W/module	Module's Centre distance:	28mm
Voltage:	12VDC	Max. Pcs one connection:	100pcs
View angle:	120°	Length of 100pcs:	2846mm
Luminous Flux:	28lm/module	Colour:	CW/WW
Standard length a series:	100pcs/series	Work Temperature:	-20°C ~ +60°C
Waterproof:	IP67	Storage Temperature:	-40°C ~ +80°C
