

Features:

1. High power and very brilliant combination of specific cool white and red diodes designed for special industrial area like enhance food lighting display.
2. Nano coated waterproof IP65 able to be installed in refrigerated displays.
3. 2 oz white double-sided tinned copper PCB, excellent cooling and less voltage drop to make whole strip same brightness.
4. Strong 3M stick tape for easy installation.

Specifications

| | | | |
|----------------------|------------------------------------------|------------------------|-------------------------|
| Product Code: | PRI-GRAZE | Colour Temperature: | CW 10000K+ Red 660nm |
| Power: | 22W/m (9.2A) | Color Rendering Index: | Ra>90 |
| Voltage: | 12VDC | Cutting Section: | 3 SMD (25mm) |
| LED Qty: | 120(SMD2835)/m | View Angle: | 120° |
| Luminous Efficiency: | 2800-3200lm/5m | Working Temperature: | -20~+50°C |
| IP Rating: | IP65 (Nano Coated) | Storage Temperature: | -30~+70°C |
| PCB: | 2 oz white double-sided Tinned Copper | Certifications: | UL, CE, RoHS |
| PCB Width: | 10mm | | |
